

A Smile a Day keeps the Competition Away... Experience the success

of the **Natural WhiteSpa®**

Teeth Whitening System

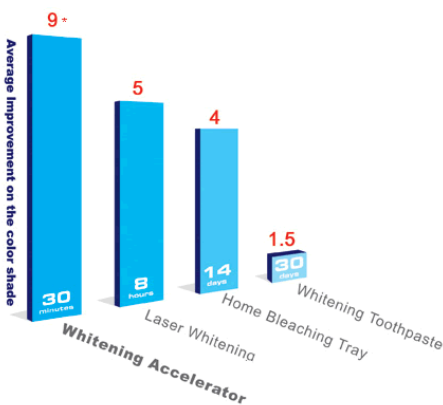

Cosmetic teeth whitening is one of the fastest growing segments of the health and beauty industry and the Natural White Spa System brings the latest in cosmetic tooth whitening technology to aesthetic professionals worldwide. In less than an hour, clients receiving the White Spa treatment can restore their natural white smile, removing years of stains.

Exciting advances have helped turn cosmetic tooth whitening into a billion-dollar global industry. Let the Natural White Spa System help you enter the leading edge of this lucrative market.

How Does It Work?

The Natural White Spa System starts with our Power Whitening Accelerator. Producing an intense beam of purple light filtered through over 12,000 optical fibers and 20 layers of coated optical glass, the Whitening Accelerator Illuminates the teeth at a wavelength of 480 to 520 nanometers, proven to be the optimal range for teeth whitening. Harmful ultra-violet (UV) and infrared light is completely removed by the filtering system, leaving only a focused beam of cold-light in the blue-cyan spectrum, penetrating deep into the teeth and activating the whitening formula to its optimal potency.

The Natural Whitening Formula found in our client treatment packs is designed to work specifically with the Beyond Whitening Accelerator. The dual-syringe whitening gel delivery system enters the proprietary formula with the included molding tips for direct, immediate application to the tooth surface. The Whitening Accelerator's intense cold-light activates the whitening gel and rapidly accelerates the whitening process. In just three 20-minute cycles, teeth discoloration from years of staining foods, coffee, tobacco, cola, and red wine is eliminated, leaving a beautiful, pearly-white smile.

A professional, yet simple and effective cosmetic tooth whitening procedure performed in your office gives your clients the results they want! Start offering cosmetic tooth whitening with the Natural White

Spa System and grow your business today.

Natural White Spa vs. Other Tooth Whitening Options:

Tests show that, after whitening with the Natural whitening system, teeth score five to 14 points higher on the VITA Teeth scale. The results are 30% better than for home whitening kits and much better than results obtained with other comparable products.

Frequently Asked Questions

Is the Natural Whitespa treatment for everyone?

The Natural Whitespa treatment delivers phenomenal results to people whose teeth have been stained by smoking or by substances like coffee or tea. The treatment also whitens teeth stained by tetracycline, fluoride, or hereditary discoloration. However pregnant women, children under the age of 16, and patients with periodontal disease are discouraged from undergoing this procedure.

How white could my teeth get?

Tests show that, after whitening with Natural Whitespa, teeth score from 5 to 14 points higher on the teeth shade scale. Individual results will depend on how discolored the teeth were originally, however the end result will be white, shiny teeth.

How long will the whitening last?

This varies from person to person and depends on your diet, but the effects should usually last for at least two years.

Is it safe?

Yes, scientific studies have shown that using hydrogen peroxide to whiten teeth is effective and safe. The dental community has used it in teeth whitening for years. It does not change or damage the structure of teeth; it merely makes them appear whiter and brighter.

How long does treatment take?

In only 30 to 40 minutes, tooth discoloration that has built up over the years will magically disappear. It takes no longer than the time it would for you to have a haircut, a manicure, or a cup of coffee, it's that simple!

What is the difference between Natural Whitespa and other methods of whitening?

The Natural Whitespa whitening technique whitens your teeth immediately and has no side effects. The result is 30% better than home whitening products and comparable technologies.

Will it whiten my existing crowns or veneers?

The Natural Whitespa whitening treatment cannot change the color of porcelain crowns or veneers. We recommend that you discuss your situation with your dentist to determine what you can expect.

Will it hurt?

Most of our customer experience no pain or sensitivity after the treatment. A very small percentage of patients may feel a minor ache in the first twelve hours following the procedure. Taking an over the counter pain killer can help resolve this discomfort. Avoid cold or hot drinks for the first 24 hours if there is any tooth sensitivity.
